

Juuve

Life in cities.

68% live cities by 2050.

Juuve

This is how we want it.

Space for people, not for cars.

Results of shared mobility.

Lazy people, more cars, less space.

Let's turn it around.

A business model that benefits cities.

Unattractive for city use.

Let's turn it around.

A business model that benefits cities.

 Unattractive for city use.

 Easy on adding cars.

Let's turn it around.

A business model that benefits cities.

-  Unattractive for city use.
-  Easy on adding cars.
-  ...better than ownership.

What?

Integrate mobility within apartments, offices and neighbourhoods.

Juuve

How?

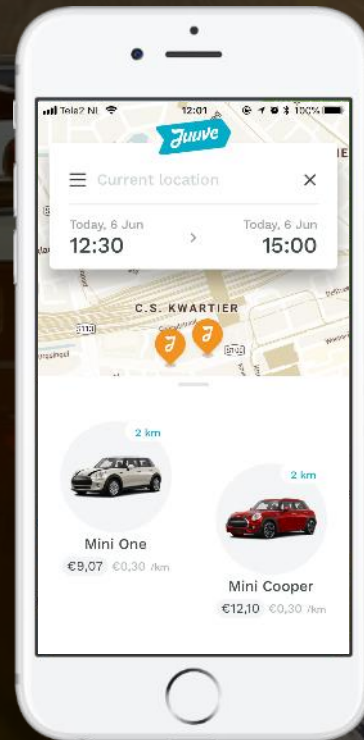

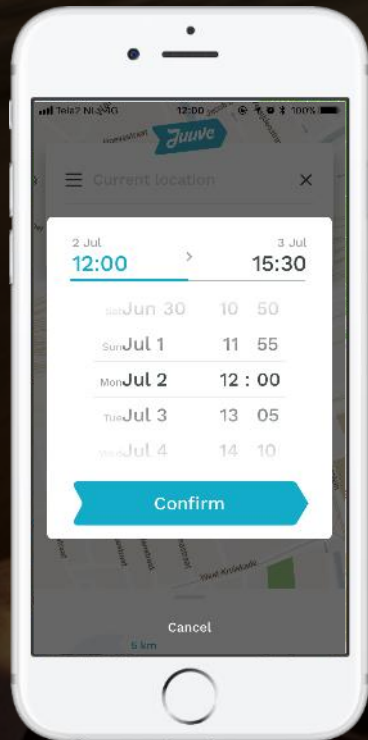

Superior service, large scale.

Juuve

How?

Superior service, large scale.

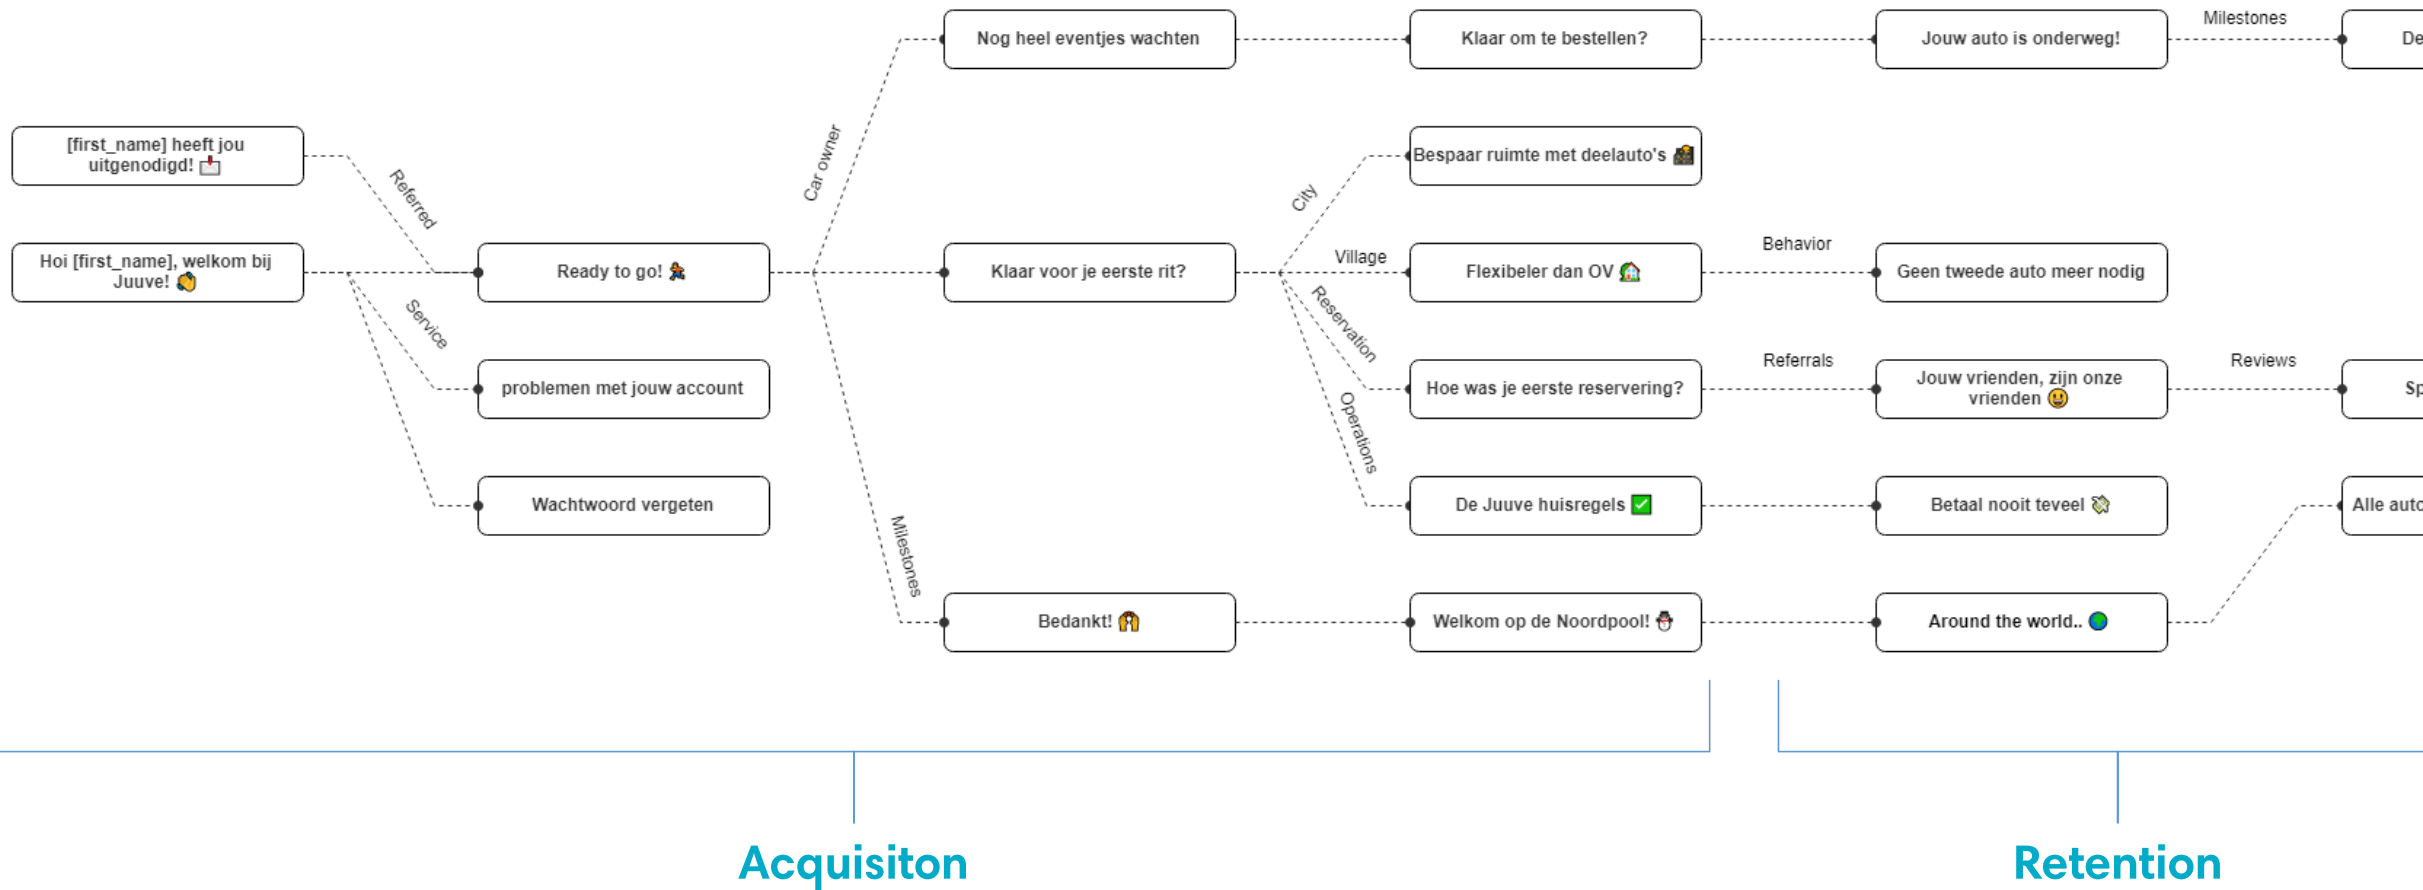

Key to success?

Listen, act, automate.

Engage!

We. Automate. Everything.

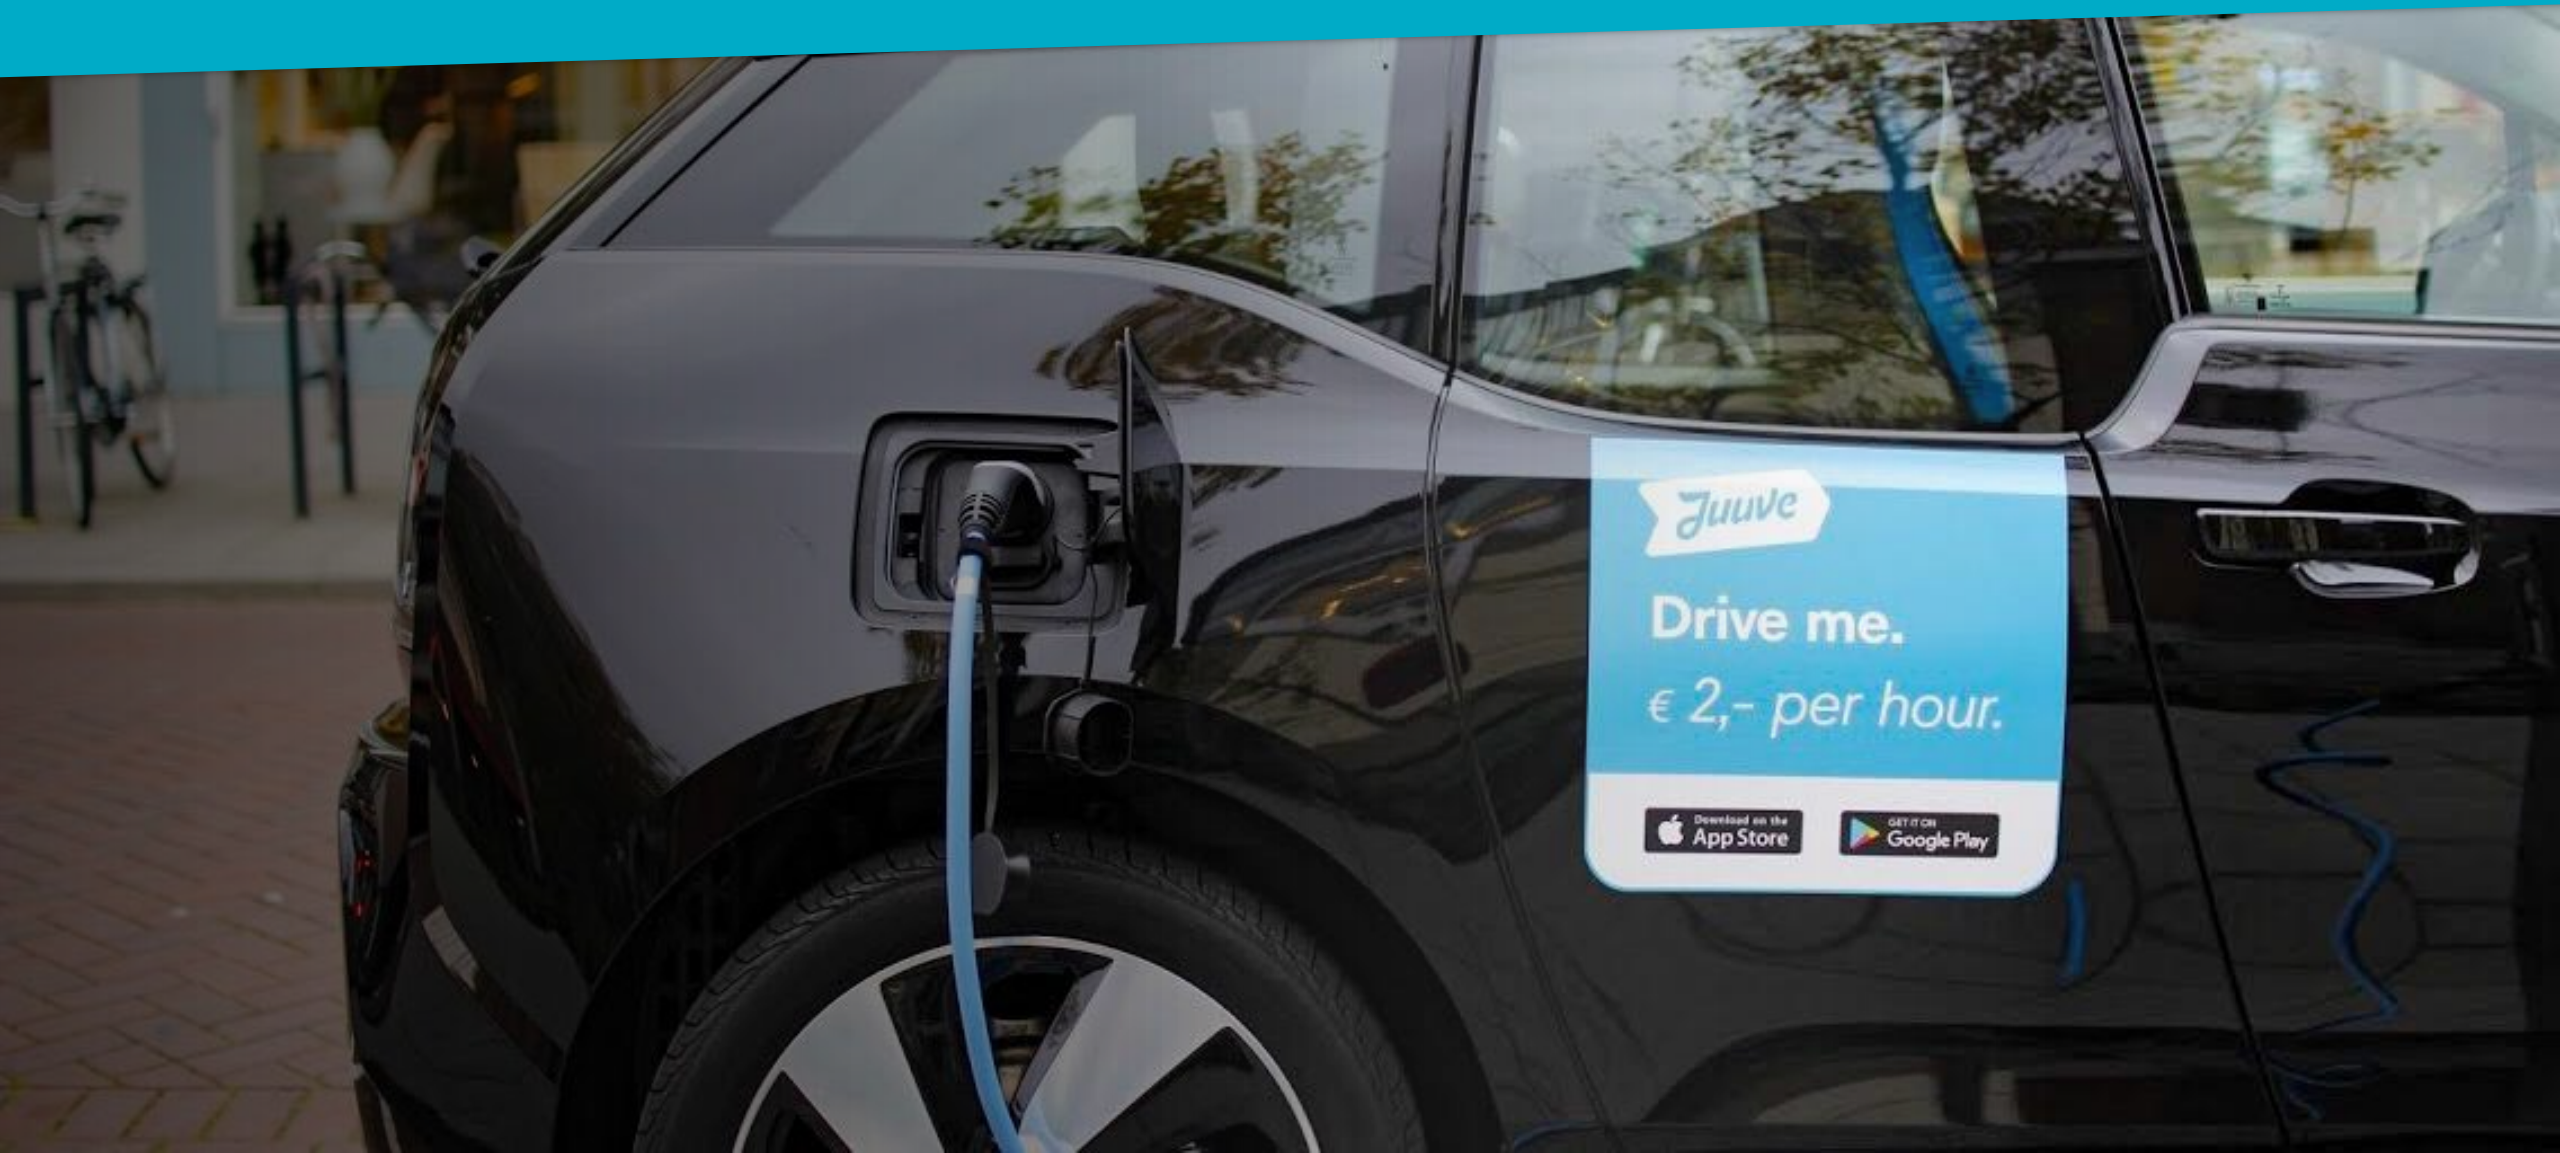

Automation level: boss mode.

Really everything.

The results?

This.

Where did it bring us?

LTD: 60 cars, 1.000 users

Where are we headed?

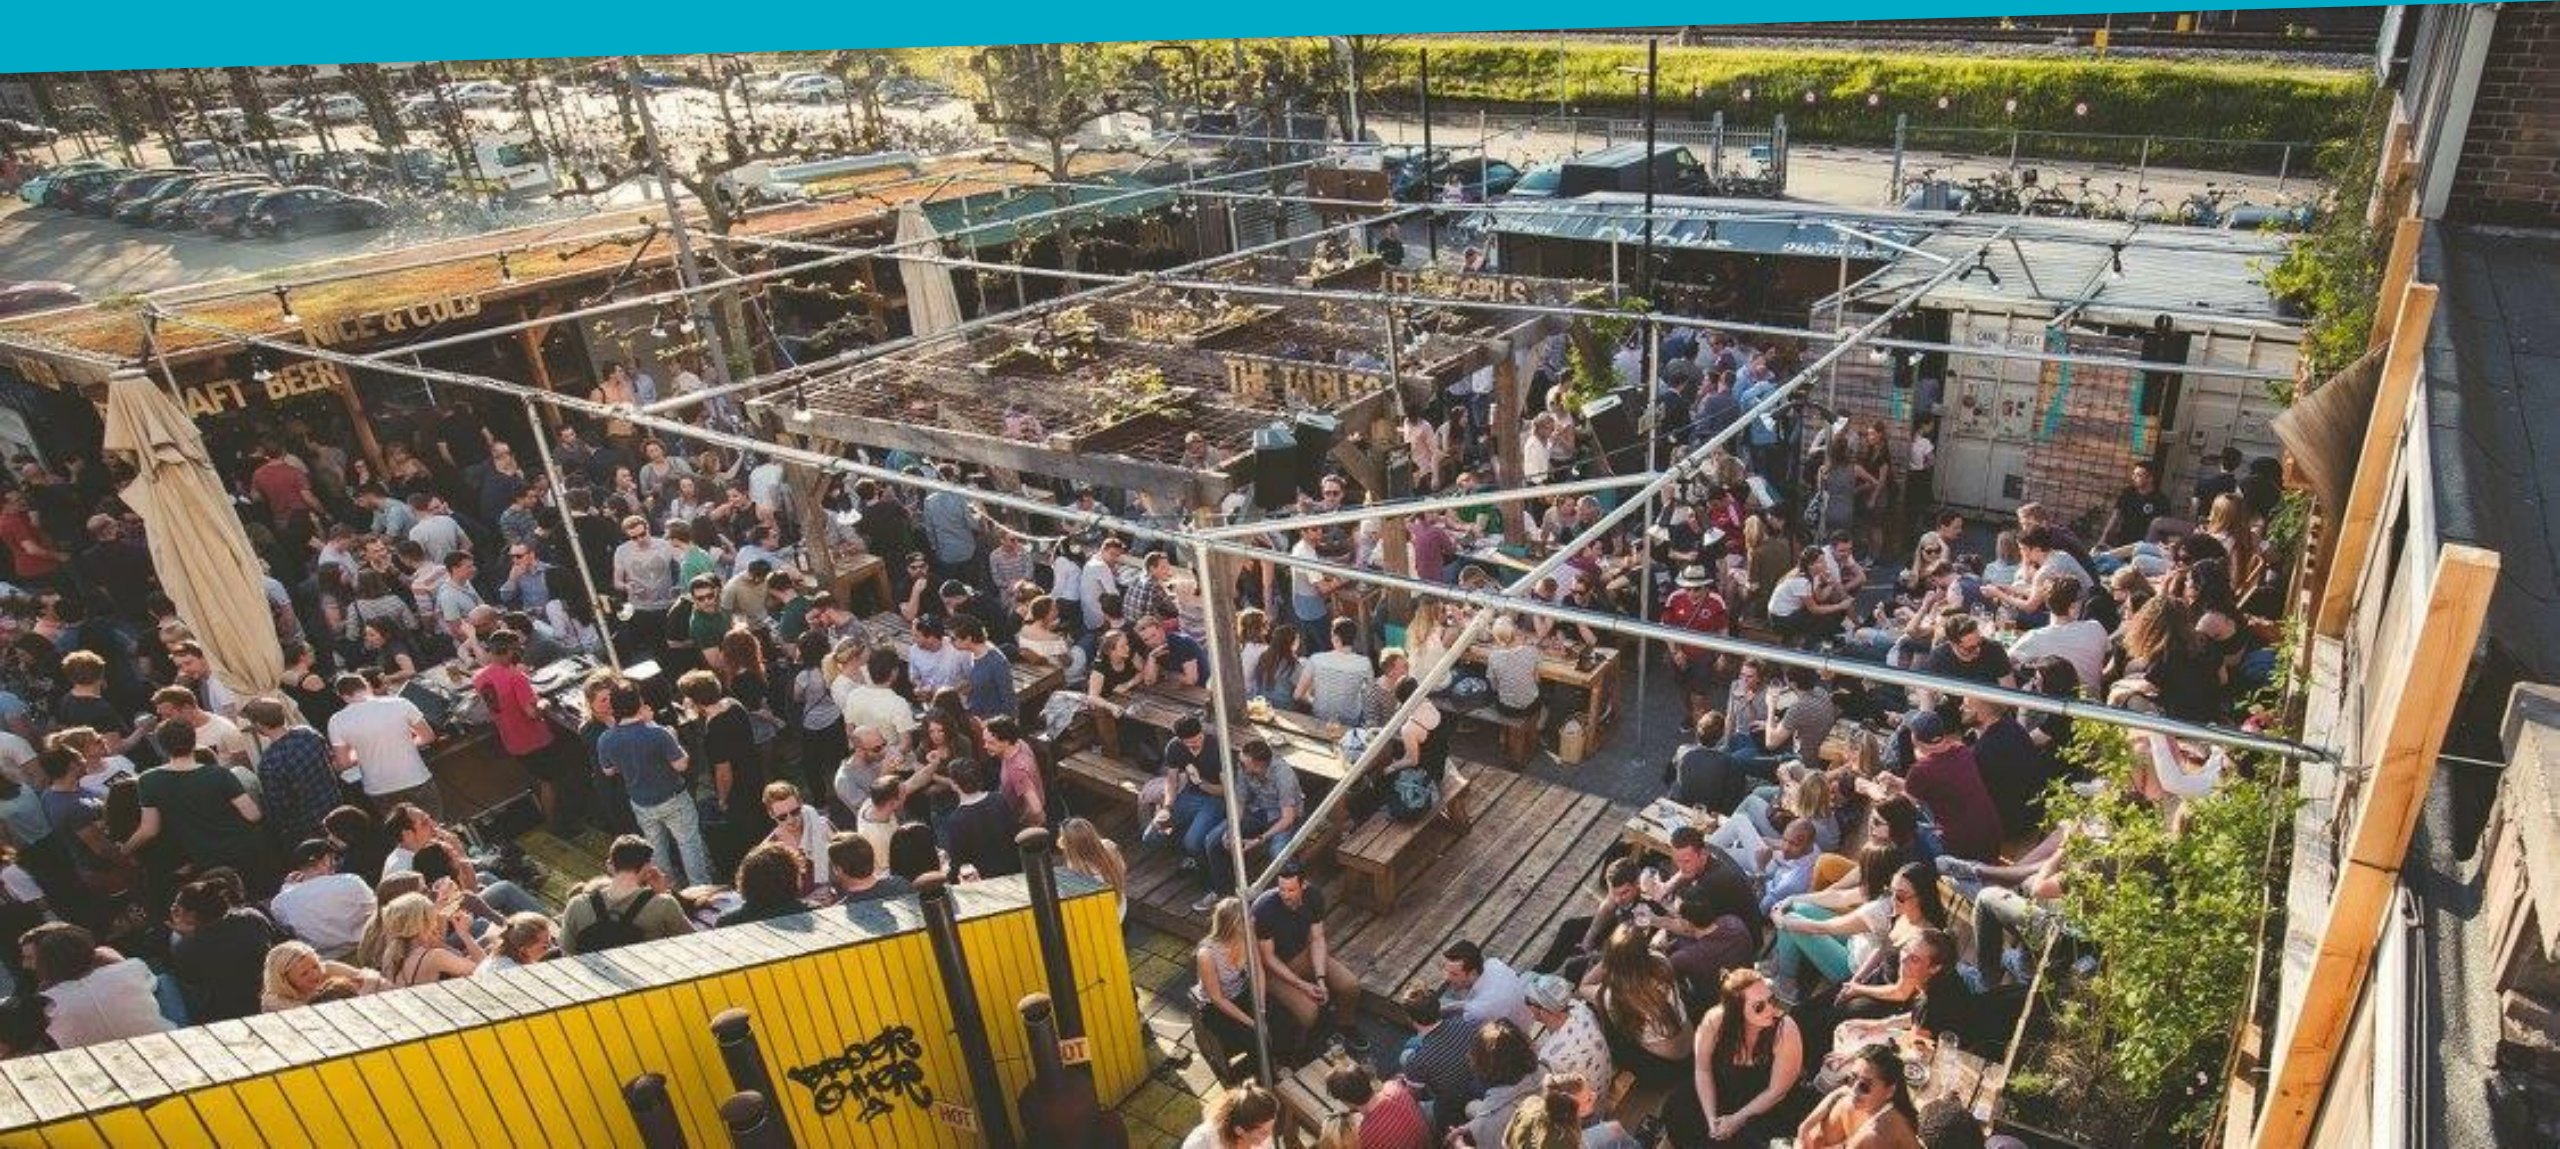

Europe, Juve is coming.

Juuve

And we'll have more places like this.

Parking space → Biergarten.
